

Gudy Examination Series

MAP YOUR MASTERY. MASTER YOUR GOALS.

TKA Wajib: Bahasa Inggris

Reading Informational & Academic Texts

Main Idea & Thesis Statement, Locating Explicit Factual Details, Paraphrasing, Drawing Logical Inferences

Kode Paket: GDY-BAH-READ-100
Jumlah Soal: 20 Butir Pilihan Ganda
Alokasi Waktu: 60 Menit
Target Nilai: 100 / Sempurna

Petunjuk Pengerjaan Ujian Mandiri:

1. Kerjakan seluruh butir soal secara mandiri tanpa membuka buku catatan atau bantuan mesin pencari untuk mengukur pemahaman murni Anda.
2. Pilihlah satu jawaban yang paling tepat (A, B, C, D, atau E) untuk setiap butir soal.
3. Perhatikan alokasi waktu ujian (60 menit) untuk melatih kecepatan membaca dan ketepatan kalkulasi.
4. Setelah selesai, periksalah lembar jawaban Anda dengan *Kunci Jawaban & Lembar Pembahasan Lengkap* yang terletak di halaman akhir dokumen ini.

BAGIAN 1: NASKAH SOAL PILIHAN GANDA

Soal #1

Main Idea

Read the passage below:

'Artificial intelligence is profoundly reshaping modern educational methodologies. Intelligent tutoring systems can now diagnose individual student learning gaps in real time, adapting pedagogical content to accommodate varying cognitive paces. Furthermore, automated grading frameworks relieve instructors of repetitive administrative duties, enabling them to dedicate greater attention to individualized mentorship.'

What is the main idea of the passage?

- A. Teachers are gradually being replaced by computerized robots
- B. Artificial intelligence is significantly transforming modern education practices
- C. Grading frameworks are the most critical component of teaching
- D. Students prefer learning from software rather than human mentors
- E. Administrative duties have increased in modern institutions

Soal #2

Explicit Fact Scanning

Read the passage below:

'Artificial intelligence is profoundly reshaping modern educational methodologies. Intelligent tutoring systems can now diagnose individual student learning gaps in real time, adapting pedagogical content to accommodate varying cognitive paces. Furthermore, automated grading frameworks relieve instructors of repetitive administrative duties, enabling them to dedicate greater attention to individualized mentorship.'

According to the passage, how do intelligent tutoring systems assist learners?

- A. By calculating end-of-year tuition discounts
- B. By identifying learning gaps and adapting content to their individual pace
- C. By eliminating the requirement for standardized examinations
- D. By monitoring students' physical activities in the classroom
- E. By scheduling social extracurricular activities

Soal #3

Inference Question

Read the passage below:

'Artificial intelligence is profoundly reshaping modern educational methodologies. Intelligent tutoring systems can now diagnose individual student learning gaps in real time, adapting pedagogical content to accommodate varying cognitive paces. Furthermore, automated grading frameworks relieve instructors of repetitive administrative duties, enabling them to dedicate greater attention to individualized mentorship.'

It can be inferred from the passage that before AI automation, teachers...

- A. Did not care about mentoring their students
- B. Spent a substantial portion of their working hours on repetitive assessment tasks
- C. Never experienced difficulties diagnosing student progress
- D. Refused to adopt digital computer technology
- E. Had significantly shorter working days

Soal #4

Primary Purpose

Read the passage below:

'Artificial intelligence is profoundly reshaping modern educational methodologies. Intelligent tutoring systems can now diagnose individual student learning gaps in real time, adapting pedagogical content to accommodate varying cognitive paces. Furthermore, automated grading frameworks relieve instructors of repetitive administrative duties, enabling them to dedicate greater attention to individualized mentorship.'

What is the author's primary purpose in writing the passage?

- A. To warn against the catastrophic dangers of classroom automation
- B. To inform readers about the positive impacts of AI on educational methods
- C. To advertise a commercial intelligent tutoring software brand
- D. To criticize traditional teachers for their slow grading methods
- E. To demand immediate school curriculum overhauls

Soal #5

Paraphrasing Verification

Which statement best paraphrases: 'Automated grading frameworks relieve instructors of repetitive administrative duties'?

- A. Teachers no longer have any work left to complete in school
- B. Automated scoring systems free educators from monotonous evaluation tasks
- C. Instructors refuse to grade students' homework assignments manually
- D. Repetitive duties are preferred by computer algorithms
- E. Administrative staff must be trained to replace classroom teachers

Soal #6

Supporting Detail

The term 'pedagogical content' in the passage refers to...

- A. Financial accounting ledgers
- B. Instructional teaching and learning materials
- C. Campus security protocols
- D. Hardware maintenance guides
- E. Athletic training routines

Soal #7

Fact vs Distortion

Read the passage below:

'Artificial intelligence is profoundly reshaping modern educational methodologies. Intelligent tutoring systems can now diagnose individual student learning gaps in real time, adapting pedagogical content to accommodate varying cognitive paces. Furthermore, automated grading frameworks relieve instructors of repetitive administrative duties, enabling them to dedicate greater attention to individualized mentorship.'

Which of the following is NOT true according to the passage?

- A. AI systems can adapt content to different learning speeds
- B. AI tools enable teachers to provide more individualized mentorship
- C. AI will completely eliminate the need for human teachers by next year
- D. AI can evaluate diagnostic medical and educational patterns
- E. Intelligent tutoring software operates in real-time

Soal #8

Scientific Passage Inference

Passage: 'Coral reefs occupy less than 0.1 percent of the ocean's surface area, yet they harbor approximately 25 percent of all marine species. Rising sea surface temperatures disrupt the symbiotic relationship between corals and zooxanthellae algae, triggering widespread coral bleaching.'

What would most likely happen if sea temperatures continue to climb indefinitely?

- A. Coral reefs will expand rapidly across all oceans
- B. A catastrophic collapse of ocean biodiversity affecting a quarter of marine life
- C. Zooxanthellae algae will begin hunting deep-sea fish
- D. The percentage of the ocean covered by coral will reach 25 percent
- E. Marine species will adapt immediately without any losses

Soal #9

Identifying Thesis Placement

In an academic analytical exposition essay, the thesis statement is conventionally positioned...

- A. In the middle of the bibliography list
- B. At the end of the introductory paragraph
- C. Inside an appendix table
- D. As the caption of the first illustration
- E. In the acknowledgments section

Soal #10

Cause and Effect Analysis

Passage: 'Coral reefs occupy less than 0.1 percent of the ocean's surface area, yet they harbor approximately 25 percent of all marine species. Rising sea surface temperatures disrupt the symbiotic relationship between corals and zooxanthellae algae, triggering widespread coral bleaching.'

Based on the passage above, what directly triggers coral bleaching?

- A. Commercial overfishing of pelagic sharks
- B. The breakdown of the symbiotic relationship with photosynthetic algae due to warm waters
- C. The expansion of marine sanctuaries
- D. Excessive rainfall along coastal estuaries
- E. Sudden freezing of surface waves

Soal #11

Data Synthesis

Passage: 'Coral reefs occupy less than 0.1 percent of the ocean's surface area, yet they harbor approximately 25 percent of all marine species. Rising sea surface temperatures disrupt the symbiotic relationship between corals and zooxanthellae algae, triggering widespread coral bleaching.'

According to the passage, what proportion of marine species relies upon coral reefs?

- A. 0.1 percent
- B. 2.5 percent
- C. 25 percent
- D. 50 percent
- E. 75 percent

Soal #12

Identifying Analogy

When an author compares the function of a computer CPU to a human brain, what rhetorical technique is being employed?

- A. Irony
- B. Analogy
- C. Understatement
- D. Hyperbole
- E. Euphemism

Soal #13

Fact Identification in Academic Writing

Which of the following sentences represents an empirical FACT?

- A. Quantum computers are undeniably the greatest human invention ever built
- B. Water freezes at zero degrees Celsius at standard atmospheric pressure
- C. Python is far more enjoyable to learn than any other coding language
- D. Working remotely is undoubtedly superior to working in a corporate office
- E. Electric cars are boring compared to vintage muscle cars

Soal #14

Tone in Academic Journals

The tone of a peer-reviewed academic journal article investigating vaccine efficacy is typically...

- A. Sarcastic and theatrical
- B. Objective, empirical, and measured
- C. Angry and confrontational
- D. Whimsical and humorous
- E. Mysterious and suspenseful

Soal #15

Summarizing a Text Segment

A paragraph explains that sleep deprivation causes micro-sleep episodes, slower neural reaction times, and impaired memory retention. The best summary title for this section is...

- A. The History of Bedtime Alarms
- B. Cognitive and Physiological Consequences of Sleep Deficit
- C. How to Purchase Memory Pills
- D. The Advantages of Midnight Coding Sessions
- E. Dreams and REM Sleep Stages

Soal #16

Deducing Unstated Conclusions

Passage: 'Countries investing heavily in fiber-optic telecommunications and high-tech STEM education consistently achieve higher GDP growth than those dependent exclusively on raw mineral extraction.'

What can be reasonably concluded?

- A. Mineral extraction should be made illegal immediately
- B. Technological infrastructure and knowledge-based training are vital drivers of economic growth
- C. Fiber-optic cables are made from rare minerals
- D. Education has no measurable influence on national prosperity
- E. All developed countries have zero natural resources

Soal #17

Expository Text Structure

An academic essay that presents a technical dilemma and subsequently details three methods to mitigate it follows which text structure?

- A. Chronological order
- B. Problem and Solution
- C. Biography
- D. Poetic narrative
- E. Spatial description

Soal #18

Contextual Contrast

Sentence: 'Unlike renewable wind and solar energy, fossil fuel combustion generates substantial greenhouse gases that accelerate global climate change.'

What is the primary point of contrast?

- A. The financial cost of manufacturing turbines
- B. The emission of climate-altering greenhouse gases during energy production
- C. The physical weight of coal versus sunlight
- D. The geographical location of power grids
- E. The popularity of electric vehicles

Soal #19

Statistical Reading

A chart shows smartphone sales rising from 200 million units in 2010 to 1.4 billion units in 2020. This indicates a...

- A. Minor dip
- B. Sevenfold increase in annual sales volume
- C. Stagnant market
- D. Decrease in consumer adoption
- E. Fifty percent decline

Soal #20

Academic Reading Strategy

When taking a timed standardized reading examination, which strategy is most effective for long technical passages?

- A. Reading each word three times slowly before looking at questions
- B. Skimming the passage for the main thesis, reviewing questions, and scanning back for specific keywords
- C. Translating the entire English text into Indonesian on rough paper
- D. Guessing option C for all questions without reading
- E. Reading only the last sentence of the entire article

BAGIAN 2: KUNCI JAWABAN & PEMBAHASAN LENGKAP

No	Topik / Pokok Bahasan	Kunci	No	Topik / Pokok Bahasan	Kunci
1	Main Idea	B	11	Data Synthesis	C
2	Explicit Fact Scanning	B	12	Identifying Analogy	B
3	Inference Question	B	13	Fact Identification in Academic Writing	B
4	Primary Purpose	B	14	Tone in Academic Journals	B
5	Paraphrasing Verification	B	15	Summarizing a Text Segment	B
6	Supporting Detail	B	16	Deducing Unstated Conclusions	B
7	Fact vs Distortion	C	17	Expository Text Structure	B
8	Scientific Passage Inference	B	18	Contextual Contrast	B
9	Identifying Thesis Placement	B	19	Statistical Reading	B
10	Cause and Effect Analysis	B	20	Academic Reading Strategy	B

Lembar Pembahasan Langkah per Langkah:

Pembahasan Soal #1 [Main Idea] — Kunci Jawaban: (B)

The first sentence presents the primary thesis statement: AI is reshaping educational methodologies, which is then substantiated by adaptive tutoring and automated assessment in subsequent sentences.

Pembahasan Soal #2 [Explicit Fact Scanning] — Kunci Jawaban: (B)

Explicitly stated in sentence 2: 'Intelligent tutoring systems can now diagnose individual student learning gaps in real time, adapting pedagogical content...'

Pembahasan Soal #3 [Inference Question] — Kunci Jawaban: (B)

The statement that automated grading 'relieves instructors of repetitive administrative duties' logically implies teachers previously spent significant time on those manual grading tasks.

Pembahasan Soal #4 [Primary Purpose] — Kunci Jawaban: (B)

The passage maintains an informative, balanced expository tone describing the technological advancements and educational benefits of AI.

Pembahasan Soal #5 [Paraphrasing Verification] — Kunci Jawaban: (B)

'Relieve instructors of repetitive administrative duties' is accurately restated as 'free educators from monotonous evaluation tasks'.

Pembahasan Soal #6 [Supporting Detail] — Kunci Jawaban: (B)

Pedagogical relates to the theory and practice of education/teaching; hence pedagogical content means educational instruction material.

Pembahasan Soal #7 [Fact vs Distortion] — Kunci Jawaban: (C)

The text never claims AI will eliminate human teachers; on the contrary, it emphasizes that AI enables teachers to focus more on personal mentorship.

Pembahasan Soal #8 [Scientific Passage Inference] — Kunci Jawaban: (B)

Since 25% of marine species depend on corals and warm waters cause fatal bleaching, prolonged temperature rises would collapse that marine biodiversity.

Pembahasan Soal #9 [Identifying Thesis Placement] — Kunci Jawaban: (B)

Academic convention places the central thesis statement at or near the end of the introductory paragraph.

Pembahasan Soal #10 [Cause and Effect Analysis] — Kunci Jawaban: (B)

The passage explicitly links elevated temperatures to the disruption of symbiosis between corals and zooxanthellae, causing bleaching.

Pembahasan Soal #11 [Data Synthesis] — Kunci Jawaban: (C)

Explicit text: '...yet they harbor approximately 25 percent of all marine species.'

Pembahasan Soal #12 [Identifying Analogy] — Kunci Jawaban: (B)

An analogy explains an unfamiliar or technical concept by demonstrating its functional similarity to something familiar.

Pembahasan Soal #13 [Fact Identification in Academic Writing] — Kunci Jawaban: (B)

Sentence B is an empirically verifiable, measurable scientific fact. The others contain subjective opinion markers (*undeniably greatest, enjoyable, superior, boring*).

Pembahasan Soal #14 [Tone in Academic Journals] — Kunci Jawaban: (B)

Scientific research papers maintain an objective, empirical, neutral, and methodologically measured tone.

Pembahasan Soal #15 [Summarizing a Text Segment] — Kunci Jawaban: (B)

The title comprehensively encapsulates both the mental (cognitive) and bodily (physiological) repercussions of insufficient sleep.

Pembahasan Soal #16 [Deducing Unstated Conclusions] — Kunci Jawaban: (B)

The correlation between STEM/fiber-optic investment and superior GDP performance demonstrates the primacy of a knowledge-based economy.

Pembahasan Soal #17 [Expository Text Structure] — Kunci Jawaban: (B)

Presenting a complication followed by mitigation techniques is the classic Problem-Solution text framework.

Pembahasan Soal #18 [Contextual Contrast] — Kunci Jawaban: (B)

The contrast hinges directly on the generation of greenhouse gas emissions versus renewable clean alternatives.

Pembahasan Soal #19 [Statistical Reading] — Kunci Jawaban: (B)

1.4 billion divided by 200 million = 7. Thus it represents a sevenfold growth.

Pembahasan Soal #20 [Academic Reading Strategy] — Kunci Jawaban: (B)

Skimming for structure followed by targeted scanning for question keywords is the scientifically validated high-scoring reading strategy.
